The object of this criterion is to effect an equitable distribution of contracts among qualified firms provided such distribution does not violate the principle of selection of the most highly qualified firms. This list does not count against the 5 page limit.

Failure to submit any of the above required information may be cause for rejection of the package as non-responsive.

Each firm will also be evaluated based on past performance on Authority projects only. Items considered will include the quality of work product, whether the project was completed within negotiated fee and the ability of the Authority staff to work with the firm’s staff.

**SCORING AND SHORTLISTING:** The Authority’s Evaluation Committee will shortlist a minimum of three (3) firms based on its evaluation and scoring of the Letters of Interest. Past performance on Authority projects will also be considered as indicated above. Scores for each category identified above will be determined using a weighted system. Each category has been assigned a weight factor that will be multiplied by a grade to determine the score. The assigned weights to each category are as follows: Technical Experience (8); Proposed Staffing (10); Project Approach (6); Location of Firm (3); M/WBE Utilization (3); Current and Projected Workload (3); Volume of Work Previously Awarded (-2). Grades for each category will be between 0 and 4. Scoring of Past Performance will have a weight of 4 and a grade range between -2 and 2. If the Committee member has no knowledge of the firm or its past performance on Authority projects then the grade shall be zero.

Shortlisting of firms will be based on converting each Committee member’s Total Score into a ranking with the highest score ranked first, second highest ranked second, etc. Once converted, the Committee members’ rankings for each firm will be entered into a summary sheet. The Total Score recorded on the summary sheet will determine the ranking and shortlisting.

Shortlisted firms will proceed to the next step in the process which includes preparation and submittal of a Technical Proposal and an oral presentation. No changes shall be made in the personnel proposed in the Letter of Interest for the Project Manager and the “key” personnel specifically designated and presently employed by the firm without the written approval of the Authority. The request for approval shall include the reason for the change and a resume of the proposed replacement. The Authority will provide the shortlisted firms with a Scope of Services for use in preparing the Technical Proposal. Each firm will be evaluated and ranked by the Authority’s Technical Review Committee based on the Technical Proposal and oral presentation. The highest ranked firm will be presented to the Authority Board for approval and authorization to negotiate fees and expenses.
