This list does not count against the five (5) page limit.

Failure to submit any of the above required information may be cause for rejection of the package as non-responsive.

Each firm will also be evaluated based on past performance on CFX projects only. Items considered will include the quality of work product, whether the project was completed within negotiated fee and the ability of CFX staff to work with the firm's staff.

**SCORING AND SELECTION:** CFX's Evaluation Committee will score and rank the Letters of Interest. Scores for each category identified above will be determined using a weighted system. Each category has been assigned a weight factor that will be multiplied by a grade to determine the score. The assigned weights to each category are as follows: Technical Experience (8); Proposed Staffing (10); Project Approach (3); Location of Firm (4); M/WBE Utilization (3); Current and Projected Workload (3); Volume of Work Previously Awarded (-3). Grades for each category will be between 0 and 4. Scoring of Past Performance will have a weight of 4 and a grade range between -2 and 2. If the Committee member has no knowledge of the firm or its past performance on CFX projects then the grade shall be zero.

Selection of a firm will be based on converting each Committee member's Total Score into a ranking with the highest score ranked first, second highest ranked second, etc. Once converted, the Committee members' rankings for each firm will be entered into a summary sheet. The Total Score recorded on the summary sheet will determine the ranking. The two highest ranked firms will be presented to the CFX Board for approval and authorization to negotiate and enter into a contract.
