Evaluation Committee & Technical Review Members Absent:

Other Attendees:

Robert Johnson, Manager of Procurement, CFX

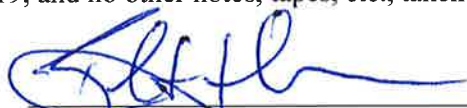

Discussion and Motions:

Robert explained this meeting is where the Project Manager provides an overview of the project to the Committee(s) and answer any questions that the Committee members may have.

Ben provided an overview of project 528-143, SR 528 / SR 436 Interchange Improvement and SR 528 Widening from SR 436 to Goldenrod Rd. except for the WB to SB movement at the SR 528 / SR 436 Interchange Improvement. The project includes seven (7) new bridges, two (2) being major and the removal of the existing structures. This will be a two (2) year project requiring the best and the brightest to be on the job as this will be high profile with the FAA, GOAA, and the City of Orlando. The project will probably have a JPA with GOAA for terminal signs. Additionally, there is a possibility that while the project is in progress, the Brightline project may be working in the same area. The team including the Resident Engineer, Project Administrator, Project Manager, and Contract Administrator we are looking for will have experience, communication skills, bridge structure knowledge and experience, and a proven track record of staying on schedule and be committed to being available full time (100% availability). The estimated construction cost for this Project is \$95,000,000. (\$95 Million). General discussion ensued.

There being no further business to come before the Committee, the meeting was adjourned at 2:18 p.m. These minutes are considered to be the official minutes of the Evaluation Committee meeting held Monday, March 18, 2019, and no other notes, tapes, etc., taken by anyone takes precedence.
